

Automated Tape Stripper TSA

insomec
Optical Technologies

Features:

- Separated loading + unloading suction gripper
- Integrated centering station
- Compact machine size

Benefits:

- Fully automated tape stripping by water-jet
- High throughput
- Low maintenance needed
- High technical availability
- Short ROI-periods
- No rejects because of surface damages
- Technology in industrial quality for professional use
- Suitable for all plastic lenses
- Easy and quick removing of recommended tape version
- Plug & play installation
- Low space requirement

Technical information:

Capacity:	app. 150 lenses/h
Automation:	automatic loading + unloading robot
Suitable for:	all lens powers and shapes
Best results on:	tape according to H&K spec.
Footprint:	1640 mm x 840 mm x 2180 mm 1640mm x 2000 mm x 2180 mm (incl. JT conveyour)
Connected loads:	400V – 32A -50Hz / 60 Hz; Cekon socket
